Cloudify : Automate static website deployment on AWS

Tech Stack

- Amazon S3
- boto3
- HTML, CSS, JavaScript
- Python

⚙️ Project Steps (One Line Each)

1. Setup AWS account and configure credentials
2. Create S3 bucket with unique name
3. Disable block public access settings
4. Enable static website hosting in S3
5. Prepare HTML, CSS, and JS files
6. Install boto3 and write Python script
7. Automate file upload to S3 bucket
8. Set bucket policy for public access

9. Run script and deploy website

10. Access website using S3 URL

Final Summary

This project demonstrates automated static website deployment using AWS S3 and Python boto3. Instead of manually uploading files, the system uses a Python script to upload website assets, configure permissions, and host the site on S3. It highlights practical cloud skills such as automation, IAM permission handling, and static web hosting, making it a strong real-world project for Data Engineer and DevOps roles

```
PS C:\Users\Vivek Chaudhari\OneDrive\Desktop\aws-project1\project4> py upl
✓ Uploaded: index.html
✓ Uploaded: script.js
✓ Uploaded: style.css
🚀 Done!
```

Object Lock

Store objects using a write-once-read-many (WORM) model to help you prevent objects from being deleted or overwritten for a fixed amount of time or indefinitely.

Object Lock
Disabled

Requester pays

When enabled, the requester pays for requests and data transfer costs, and anonymous access to this bucket is disabled. [Learn more](#)

Requester pays
Disabled

Static website hosting

Use this bucket to host a website or redirect requests. [Learn more](#)

We recommend using AWS Amplify Hosting for static website hosting
Deploy a fast, secure, and reliable website quickly with AWS Amplify Hosting. [Learn more about Amplify Hosting](#) or [View your existing Amplify apps](#)

S3 static website hosting
Enabled

Hosting type
Bucket hosting

Bucket website endpoint
When you configure your bucket as a static website, the website is available at the AWS Region-specific website endpoint of the bucket. [Learn more](#)
